CRIMEVISIONAI

Team Involvement in Demonstration

Folder 8 | Presenter roles and coordination | Prepared 23 October 2026

Project: CrimeVisionAI — Multimodal Forensic Evidence Analysis and Investigation Support System

Document status: Project-specific draft based on the implementation information currently available. Verify placeholders and run-dependent results before formal submission.

1. Presenter allocation template

#	Team member	Suggested role	Demo section	Contribution / evidence
1	[Insert actual name]	Coordinator / presenter	Problem statement, overview and transitions	Confirm actual responsibility.
2	[Insert actual name]	Backend / integration presenter	Architecture, APIs and case workflow	Explain only modules personally understood / verified.
3	[Insert actual name]	AI/ML presenter	Audio, image and video analysis	Describe model behavior and limitations.
4	[Insert actual name]	Frontend / workflow presenter	Dashboard, timeline and Q&A	Show actual UI behavior and known grounding gap.
5	[Insert actual name, if applicable]	Testing / documentation presenter	Test evidence, limitations and roadmap	Present measured results only; label pending tests.
6	[Insert actual name, if applicable]	Q&A / backup	Questions and fallback demo	Support with source-backed answers.

2. Coordination notes

Aspect	Entry
Team leader / coordinator	[Insert actual name]
Coordination rating	Complete after rehearsal; do not pre-score.
Issues during demo	Record actual issues after rehearsal/demo.
Resolution	Record actual workaround and whether it succeeded.
Build demonstrated	[Insert commit hash or version identifier]

3. Participation standard

Each presenter should understand the scope and limits of the section they present. No member should claim a feature, metric or test result that has not been verified. Use a shared feature matrix and rehearse handoffs. If a live model fails, explain the failure accurately and use a prepared fallback rather than fabricating an output.
